

FRAMING THE AMERICAN DREAM

The Best Way to Frame a House

You can build **2 1/2** more houses with the same crew using Structural Building Components.

Using Components creates **30x** less waste.

Using Components uses **25%** less wood product.

STICK-FRAMED VS. COMPONENT-FRAMED

Two identical homes were built side by side. One was stick-framed and the other was framed using structural building components. The benefits of using components are clear.
